Step.1 :-

Try any one of these website:

<https://td.hackgence.com/>

<https://www.pon.workers.dev/>

<https://teamdrive.mfoxx.workers.dev>

<https://team.gdrive.vip/>

Note: You can translate these website if language is not understandable

Step.2 :-

Type your desired drive's name at the first field and your Gmail on the bottom field.

Note: Your drive name should not contain any space, it will cause an error. You can add space later on by renaming from google drive

Step.3 :-

Complete the captcha and hit the GET button and keep the tab/browser open until it says OK.

Boom, you got your UNLIMITED shared drive which can be used to share files and data among those people you add to the drive.

You can find your shared drive here:

<https://drive.google.com/drive/shared-drives>

If it does not show up instantly just wait until it shows up.

It usually takes about 5 min max but sometimes it can take more time.
